### ACADEMIC PROFILE

#### B.Tech CSE

Mody University of Science & Technology  
Laxmangarh, Rajasthan  
**CGPA: 7.99 (III semester)**

2022-26

### PROJECTS

#### Mystic Brooms

- It is a desktop game developed using pygame, this game is based on Harry Potter where Harry Potter is flying on a broom and has to dodge the castle towers.
- This game has features such as background sound, and other music, and also comes with a high score feature and display points.
- Also to enhance more, currently working on the avatar change feature to make the game more exciting.

#### Student Management System

- Built a student management system for keeping records of students and courses.
- Records include the date of admission/withdrawals, personal details, and batch details.
- Using technology: C language and Turbo C++

#### One-stop chill

- It is an entertainment website that provides you with multiple options of links of books, songs, movies, and blogs relating to different genres.
- Working on updations such as a recommendation system based on user's preferences.
- Using technology: HTML and CSS
